

10/5/94

To whom it may concern:

We would like to express our great satisfaction on Caulton Contracting's work. Our project was completed with a level of quality of workmanship well above our expectations. All materials used were top of the line, meeting and exceeding our specifications.

Although the foundation was designed and engineered professionally, the remainder of the work was from hand drawn plans and less-than-complete detail. The contractor worked with us carefully to provide acceptable and creative alternatives in all areas of details to our complete satisfaction.

Perhaps our greatest appreciation comes from the level of communication from our contractor. Schedules of activities were well planned and communicated to us well in advance, along with changes due to unforeseen problems. This has helped immensely in reducing the frustration factor by knowing what to expect instead of waiting for surprises.

We never hesitate to recommend this contractor to anyone. His commitment to quality, honesty and integrity has been demonstrated to us from our initial negotiations all of the way through the completion of the final punch list. We wish Tim Caulton only the best of success in his future.

Sincerely,

A handwritten signature in cursive script that reads "Jackie + David M".
