Gentlemen,

This letter is to bring to your attention the excellent and professional work of The Caulton Construction Co.. This is the second time since I purchased my house in 1992 that I have had major construction. The project that was recently finished by Caulton Construction required them to add on a garage of approximately 650 square feet and convert the existing garage into a game room as well as make some structural changes to the existing structure.

The project was started on time and completed within a week of the agreed upon date. Tim Caulton and his people always handled themselves in a professional manner and were very responsive to my request throughout the project. I would highly recommend his company to anyone interested in building or remodeling a home.

Sincerely,

A handwritten signature in black ink, appearing to read "Robert W. B.", written in a cursive style.

Robert W. B.
